

In light of the current and ongoing instability and lawlessness in our country and around the world, and the growing distain toward Christian organizations and their gatherings, there is a real need for churches to get serious about protecting their church family, their pastors and their church property. The task of putting together a safety/security team can seem overwhelming, and depending on your circumstances, it can be a huge task. Where do I start? Who do I talk to? What equipment do we need? It is more Than Just Showing Up and Looking Good; You NEED a plan of action.
