XL	10"
XXL	10-1/2"
XXXL	11"

Measure the circumference around the palm at the knuckle area.

Convert the numeric measurement to determine size.

## *How to find out your correct hat size*

Use a tape measure to measure around your head:

- across your brow (approx 1" above eye brows)
- slightly above your ears
- keeping the tape parallel to the floor
- this measurement is a "two-person" event and is nearly impossible to accurately do by yourself.

For best results, use a plastic or cloth tape measure.

Alternately, you may use a piece of string or cord and then measure the length of the cord.
